

PIANO III

2,409 total square feet

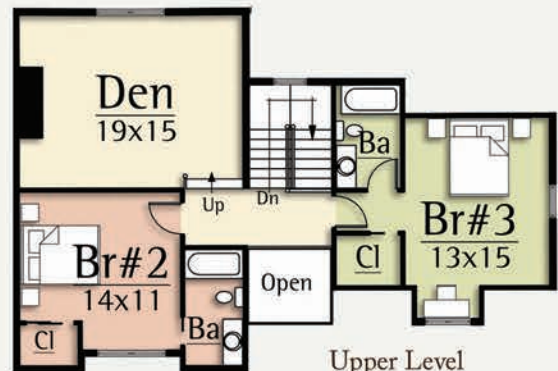

3 Br, 3.5 Ba

By 1770, the piano had reached America. Many American songs composed then related to the American Revolution.

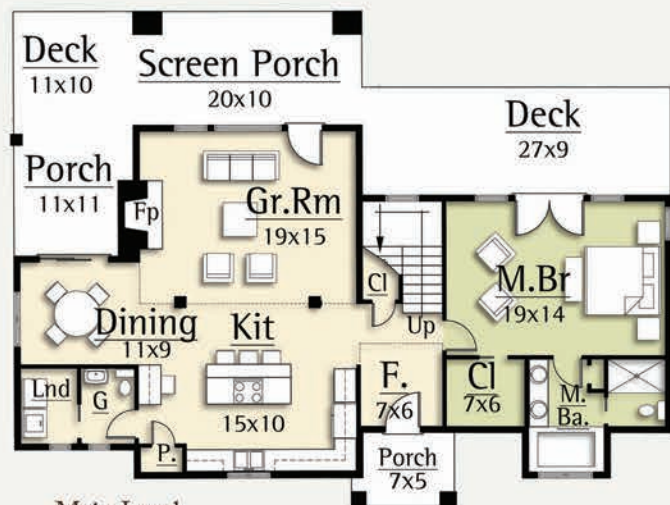

The Piano III by MossCreek symbolizes living in the early American landscape. The exterior hearkens back to America's early farmhouses.

On the interior, the Piano III features a master suite on the main level along the well-known MossCreek living triangle of open kitchen-dining-great room areas. A large screened outdoor living porch on the rear of home is great for relaxing in the outdoors free from the nuisance of insects.

The upper level features two spacious guest rooms and baths, and a large den.

Upper Level
1,018 square feet

Main Level
1,391 square feet
